Size:	10.5" x 9.5" x 11.0" (267mm x 267mm x 298mm)
Weight:	14 lbs. (6.4kg)
Display:	3.2" LCD Touch Screen
Interface:	RJ-11, RJ-45, RS-232, USB
Power Supply:	110-240V, 50/60Hz
Banknote Size Range:	120mm x 60mm to 180mm x 90mm

Faster, More Accurate Counting

Advanced bill radiating system can both count and calculate the total value of a mixed stack of bills in no time.

Automatically Sorts Mixed Bills

Sort mode stops and alerts each time there is a change in denomination. Dramatically reduce the time needed to setup tills or prepare for bank deposits.

Protects Against Counterfeits

Ultraviolet, infrared, CIS and magnetic detection systems ensure bills are authentic—far more accurately than any pen or light.

Easy for Anyone to Use

Friendly touchscreen interface and intuitive controls allow quick access and mastery of each of the modes.
